An aerial photograph of the Schirmacher Oasis in Antarctica. The landscape is a vast, flat expanse of snow and ice, with several dark, rocky mountain peaks rising from it. The mountains are partially covered in snow, and their shadows are cast long and dark across the icy terrain. The sky is a pale, hazy blue, and the overall atmosphere is cold and desolate. A vertical white line runs down the left side of the image, and a horizontal white line runs across the bottom, intersecting at a small white dot.

*Our philosophy is simple –  
do as much or as little as you like,  
after all it's your adventure.*

For both trips there will be dedicated polar guides ensuring your safety every step of the way. Activities for your time on the ice can be easy-going or more sporty. Previous guests have painted the Wolf's Fang Peak (Gulfstream trip only); others have learnt to ice climb and others have simply just sipped champagne.
